## Front-end Developer

---

A developer specialized in front-end and back-end technologies, with experience in building scalable systems, robust APIs, and responsive interfaces. Passionate about software development, system architecture, and technological innovation.

## EDUCATION

---

- **Associate Degree** – Systems Analysis and Development – IFSP Campus Campinas – Completed in 2022.
- **JavaScript and TypeScript** – Luiz Otávio Miranda – Udemy – 2021
- **Full-Stack Development** – LaunchBase – Rocketseat – 2020.

## WORK EXPERIENCE

---

### ERA | Full-stack Developer (May 2024 – Present)

- Development and maintenance of scalable APIs using Node.js and Express.
- Design and optimization of high-performance microservices.
- Implementation of responsive and accessible interfaces.
- Database modeling, optimization, and performance tuning.
- Automated testing and CI/CD pipelines.
- Refactoring of legacy code to improve efficiency and scalability.
- Cross-functional collaboration for agile solution delivery.

### UC2B | Full-stack Developer (June 2021 – May 2024)

- Development of RESTful APIs and maintenance of scalable microservices.
  - Design and implementation of optimized user interfaces with React and Next.js.
  - Performance optimization of MySQL and MongoDB databases.
  - Development of unit and integration tests.
- Secure authentication and authorization implementation using JWT.

### Freelancer | Front-end Developer (January 2020 – June 2021)

- Development of UI prototypes using HTML, CSS, and JavaScript.
- Deployment and configuration of projects on Netlify and Vercel.
- Design and implementation of responsive and accessible interfaces.
- Unit testing implementation to ensure code quality.
